

REMARKS

Amendment to the Specification:

The specification is amended to enter the enclosed paper copy of the sequence listing. This amendment introduces no new matter into the application.

Sequence Listing:

In the Communication dated May 28, 2004, the Examiner noted that there was no record that a sequence listing in computer readable form (CRF) had been submitted in the instant application. Applicants' records show that a sequence listing, in both paper and CRF form, was submitted in this application on November 26, 2001. Nevertheless, to expedite prosecution in this application, a CRF diskette copy and paper copy of the Sequence Listing is provided herein, together with a Statement Accompanying Sequence Listing in Accordance with 37 CFR §1.821.

No "Notice to Comply" was provided

Item 4 of the Examiner's Communication dated May 28, 2004 stated that "Applicant is requested to return a copy of the attached Notice to Comply with the reply". No separate Notice to Comply was provided, so Applicants are instead enclosing a copy of the Examiner's Communication.

CONCLUSION

If a telephone conference would expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (650) 298-5809.
